**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

I chose Sonic as my Internet Service Provider because I believe in a competitive marketplace for broadband providers. Currently, there is only a couple of giant providers that are monopolizing Internet service to homes and businesses, which means We, the average consumer, are at the mercy of AT&T and Comcast. These two are bullying the smaller broadband providers, such as Sonic, and trying to squeeze them out of the ISP marketplace, so that We, the average consumer, will have no choice but to pay high prices for Internet Service that is doled out in incremental levels - the higher the range, the higher the prices.

I urge the FCC to keep broadband competition alive! Don't allow there to be a monopoly of the broadband marketplace by giant providers who exercise so much control over broadband access by the average consumer. For Our sakes!

Thank you for your attention to this vitally important matter!

Andrew Ching
